- ✓ Hold multi-level and multi-stakeholder consultations as part of the process for identifying GCM objectives for implementation.
- ✓ Refer to different needs assessment tools to facilitate consultations that fulfil suggested criteria and meet the intended objectives.
- ✓ Ensure alignment with the GCM's vision and guiding principles, including the commitment to human rights-based, gender-responsive and child-sensitive approaches.
- ✓ Synthesize the discussions and the outputs of the organized multi-level and multi-stakeholder consultations mentioned above.
- ✓ Based on the above, decide on which GCM objectives your country will focus on for implementation.
- ✓ Identify other processes relevant to GCM implementation (e.g., the processes for implementing the 2030 Agenda, the national plan on poverty reduction and cross-governmental strategies on health, education, child protection).

- ✓ Discuss the list of chosen GCM objectives with the bodies responsible for implementing these other processes, as well as with relevant sectors (e.g., health, education, child protection, social welfare, labour and justice).
- ✓ Organize a validation workshop to allow relevant government actors to approve the chosen GCM objectives.
- ✓ Communicate with all relevant governmental and non-governmental stakeholders about the outcomes of this validation workshop.
