## STATUS

Joint Programme funded

### JOINT PROGRAMME

Capacity building of local governments in Santiago (Chile) and Mexico City to strengthen the socioeconomic integration of migrants and refugees through access to decent work, sustainable livelihoods, and social dialogue

## SUMMARY

This joint programme seeks to promote socioeconomic integration of migrants, refugees and asylum seekers in Mexico City and Santiago de Chile, by improving access to decent work, sustainable livelihoods, and social protection.

To this end the joint programme will implement interventions in three areas: 1) Strengthen public policies/ programmes and services offered by governmental and non-governmental actors, in the areas of access to employment, entrepreneurship and social protection; 2) Promote social dialogue among governmental -including local authorities- and social partners in order to facilitate migrants' integration in the labour market; and 3) Facilitate South-South and City-to-City exchange of good practices.

It combines the practical implementation of new programmes to foster the socioeconomic integration of migrants with the promotion of social dialogue between city authorities and social partners (employers' organizations and workers' unions) as well as civil society.

This joint programme seeks to foster exchange of good practices between two migrant-receiving cities. This initiative is fully aligned with and responsive to the Member States' call for strengthened partnership with local governments in the context of GCM implementation.

The programme forges partnerships horizontally among local institutions and stakeholders in both countries and vertically between local and national government. While building on the experience from a previous successfully implemented project between Mexico City and Sao Paulo as well as a previous exchange of practices at the local institutional level, it goes beyond the exchange of knowledge and focuses on the implementation of concrete programmes.
