Implementing the GCM: Guidance for governments and all relevant stakeholders

Update to GCM Champions

Core Working Group 2.2: GCM National Implementation Plans
3 November 2021
Review of guidance material

Developed within the context of Core Working Group 2.2: GCM National Implementation Plans
Implementing the GCM: Guidance for governments and all relevant stakeholders

**Objective**
To provide user-friendly, self guided reference document for governments and all relevant stakeholders to implement the GCM.

**Approach**

*There is no one-size-fits-all approach to GCM implementation*

Recognizing that every country context is unique, the guidance supports

- the development of a dedicated national implementation plan
- mainstreaming GCM implementation efforts into other existing national strategies and/or plans
Advancing progress for meaningful results

The guidance has been designed to support and strengthen States’ existing efforts, including to:

- Establish GCM implementation efforts based on national and shared priorities
- Deliver on existing international obligations and agreements
- Report on national achievements
- Develop effective COVID-19 response and recovery efforts
- Advance progress toward the SDGs in the Decade of Action
Guidance Material Structure

Comprehensive guidance delivered in two parts:

**Guide**
Provides an overview of the GCM, emphasizing the 360-degree vision and 10, cross-cutting interdependent guiding principles, and introduces a six-step process to support governments and other actors with GCM implementation.

**Booklet**
Provides substantive information on all 23 GCM objectives, including examples of practical applications to inspire action within one’s own national context.

_The booklet forms part of the overall guidance and is suggested to be designed as an insert that could also serve as a stand-alone, quick reference guide for the 23 GCM objectives._
Implementing the GCM: Guidance for governments and all relevant stakeholders

- Draft Guidance material available in English, French, and Spanish
- Guidance presented to Champions in February 2021
- Feedback received through February 2021 technical discussion, as well as through a dedicated online discussion on the same topic
Revised Guidance Material

Summary and update, based on Champions’ feedback

❖ Add a section on Sustainable Developmented (Section III A)
  Section added
❖ Review/strengthen framing language regarding the guidance and how to use it, particularly as it relates to GCM implementation as an iterative, non-linear process
  Revised text to clarify the suggested process is non-linear and iterative; text encourages use in accordance with national context and needs
❖ Review examples and case studies to ensure balance (geographical, migration context, political context, thematic areas)
  Examples reviewed using the above criteria and reduced to 3-4 per GCM Objective in the hard copy publication;
  All practices, including new submissions, will be reviewed through the Peer review process and added to the online version as relevant to ensure timely, new, and relevant examples to help inspire action
Revised guidance material

Summary and Update, based on Champions’ feedback

❖ Develop/share a template to help solicit examples and case studies regarding GCM implementation, follow-up and review

Please see the template created by the Migration Network Hub/CWG 1.2
- Template allows reviewers to tag elements of the 2.2 Guidance
- Champions kindly invited submit practices using the template. National Implementation Plans or other GCM action plans can also be shared with the Network Secretariat: unmignet@iom.int

❖ Develop some infographics and/or shorter summaries around the 6 steps

Pending professional editing, design and layout (November-December 2021) shorter summaries and/or infographics will be created to support use and dissemination.

❖ Connect to the Hub

Guidance will be converted into an e-/online document that can be easily accessed via the Hub.
