

## Workshop for the UN Network on Migration (UNNM) in Tajikistan

20-21 November 2023  
Dushanbe  
Hyatt Regency Dushanbe

*funded by*  
**SUPPORT FOR GOVERNMENTS OF CENTRAL ASIAN STATES  
IN THE IMPLEMENTATION OF THE GLOBAL COMPACT FOR MIGRATION**

The purpose of the training retreat is to provide guidance to the UN Country Teams/ UNNM members in Tajikistan on how to systematically integrate migration into UN Cooperation Frameworks (CFs) and accompanying Common Country Analyses (CCAs).

The training is intended to support the acceleration of the Sustainable Development Goals, including through enhancing the implementation of the Global Compact for Migration. The training follows a whole-of-UN, whole-of-government, and whole-of-society approach, promoting policy coherence and aligning with the ongoing UNDS reform process.

The training has been designed to reach a balance between ensuring core theoretical and practical content, while allowing space for the material to be adjusted to reflect the country context of Tajikistan. It is important to ensure that the training meet the needs of the training participants – UNNM members in Tajikistan - and reflect the migration dynamics as well as development priorities in the country.

Group activities are a key component of the training process. In stimulating discussion and active exchange among participants, activities facilitate peer-to-peer learning and encourage participants to reflect on opportunities to integrate what they learn in the training into their day-to-day work.

### **Facilitators**

1. Amr Taha, Sr. Regional Liaison and Policy Officer, IOM
2. Dr. Simonida Kacarska, Director of EPI
3. Kanako Mabuchi, Head of the UN RCO Azerbaijan
