The Essentials of Migration Management (EMM2.0) is IOM’s flagship programme on migration management which provides online resources and foundational training to government officials and all stakeholders dealing with migration. The programme highlights the interaction between different thematic areas and builds a common understanding of migration with a whole-of-government approach. It also leverages cooperation at national, regional and global levels, while articulating the relevance of international frameworks, such as the Global Compact and 2030 Agenda, on the day-to-day work of government officials and other stakeholders involved.

**PROGRAMME FEATURES**

**Handbook**
Online chapters covering brief yet comprehensive overviews of foundational and thematic areas of migration management.

**E-Library**
Repository of resources, including key IOM and UN documents on migration management and an interactive presentation of the IOM Glossary.

**Courses**
An online portal to various types of training modalities offered by EMM2.0. This includes a catalogue of face-to-face training and online courses, as well as blended training.

**Face-to-Face**
EMM2.0 provides training materials to enable the delivery of face-to-face sessions, including the facilitator’s guide, participant’s manual, presentation slides and assessment tools.

**Training Design Dashboard**
Digital solution enabling certified trainers and training developers to create cost-effective and tailor-made trainings.

**E-Learning**
EMM2.0 offers 19 self-paced e-learning courses which can be taken in complementarity with other training or as a standalone option.

**Blended**
EMM2.0 training can be implemented using a combination of face-to-face, e-learning and online courses (such as webinars or virtual classrooms) depending on preference.
PART I
